Charter Mem Presented DSCC Outstanding Alumni Award

Dyersburg State Community College (DSCC) honored Jennifer Tyler of Brighton and the late Franklin Bales of Dyersburg with the Outstanding Alumni Award March 29 inside the Student Center on the Dyersburg campus.

Luciana Shaw, president of the DSCC Alumni Association, along with Dr. Karen A. Bowyer, president of DSCC, presented the awards in front of 175 faculty and staff during the College's spring conference.

Tyler graduated from DSCC with an Associate of Science degree in Social Sciences in 2001, an Associate of Science degree in Criminal Justice in 2005 and an Associate of Applied Science degree in Justice Services in 2005. She also earned a Bachelor of Arts degree in Liberal Arts from Excelsior College in 2011, a Master of Arts degree in Education from Bethel University in 2012, and a Master of Arts degree in English from the University of Memphis in 2014. Jennifer also graduated from the Instructional Leadership Program from Bethel University in 2014.

Tyler worked as a receptionist at Brighton Family Medicine from 2005-2009 and began her teaching career at Munford High School in 2009 where she is currently employed as a College Preparatory English teacher. She serves on the faculty council of the National Honor Society, sponsors Key Club, handles alumni relations and serves as a liaison to city and county government and civic entities. She also teaches print and broadcast journalism to upper-level students. Tyler has also served as an adjunct faculty member teaching dual enrollment English classes through Dyersburg State Community College since 2013.

She is a member of the DSCC Alumni Association, The University of Memphis Alumni Association, the LeBonheur 101 Class of June 2017, and supports the Tiger Scholarship Fund. While attending DSCC, she was a member of the Student Government Association, Phi Theta Kappa Honor Society, Homecoming Court 1998 and 1999, and the dean's list.

"Dyersburg State provided me with a great environment for my first academic endeavor after high school," stated Tyler. "I feel like I have come full circle with the school as I look back on my involvement as a student, and look forward to continuing to teach students of my own as an adjunct faculty member."

Bales and Tyler Presented DSCC Outstanding Alumni Award (cont.)

Bales graduated from DSCC with an Associate of Applied Science degree in General Studies in 2015. He continued his education at Bethel University from fall 2015 through spring 2016 and then attended the University of Tennessee at Chattanooga in the fall of 2016.

Bales, a 6'4" forward from Halls High School, was a member of the DSCC men's basketball team from 2013 to 2015. He received Tennessee Community College Athletic Association (TCCAA) Academic Honors for the 2013-2014 and 2014-2015 academic years. He was named a DSCC scholar-athlete for the 2013-2014 and 2014-2015 academic years for achieving a grade-point average (GPA) of 3.0 or higher. In 2014, he received DSCC's Most Improved Player Award and in 2015, he received the Best 3-Point Percentage and Best Free-Throw Percentage Awards as well as the Highest GPA Award amongst his teammates. Bales also received the 2014-2015 National Junior College Athletic Association (NJCAA) Exemplary Academic Achievement Award for obtaining a GPA between 3.60 and 3.79.

Upon graduation at DSCC, Bales transferred to Bethel University where he was a member of the

men's basketball team. While there, he was named to the Southern States Athletic Conference All-Academic Team and to the dean's list for two semesters.

"DSCC gave Frank the opportunity to continue to play basketball and he loved every minute that he spent with the team," stated Paula Bales, Franklin's mother. "Due to the small size of Dyersburg State, he was able to get to know not only the professors he had in class, but also other faculty and staff. He also received an excellent background as evidenced by his academic performance when he transferred to a 4-year university."

Bales passed away Dec. 23, 2017, after a brave battle with cancer. DSCC President Karen Bowyer and Alumni President Luciana Shaw presented the Outstanding Alumni Award posthumously to Bales' family in his honor.

Delta Health Care Services Grant Awarded to Dyersburg State

USDA Rural Development Announces \$476,280 Investment for Health Care Training

On hand for the announcement were (from left) Joel Howard, area director for rural development of USDA, Peter Kinder, alternate federal co-chairman of Delta Regional Authority, Dr. Karen Bowyer, president of DSCC, Jim Tracy, state director for rural development of USDA, Senator Ed Jackson, and Tyler Hayes, area specialist for rural development of USDA.

On April 13, the U.S. Department of Agriculture (USDA) Office of Rural Development announced the approval of the Delta Health Care Services Grant for \$476,280 to Dyersburg State Community College. The announcement was held inside the Student Center on the DSCC Dyersburg campus in front of over 50 legislators, community leaders and representatives from local businesses, industries and organizations.

“Not only will these funds provide state-of-the-art simulation equipment for our emergency medical services programs and new nursing labs, it will also allow DSCC to expand its paramedic to RN fast track program to the Dyersburg campus and develop a RN to Bachelor of Science degree in Nursing (BSN) partnership enrollment program with The University of Tennessee Health Sciences Center in Memphis,” states Dr. Karen Bowyer, president of DSCC.

In addition, DSCC plans to achieve the overall goal of the grant by offering a CNA program in conjunction with Peabody High School; creating a pathway for advancement for RNs in northwest Tennessee; and providing job placement assistance to graduates with assistance from the American Job Centers.

The investment will be used to provide equipment and technical assistance, specifically for health care training in the rural areas of northwest Tennessee. It is designed to create a pipeline of rural health care workers to fill shortages currently present in the fields of emergency medical technicians (EMTs), advanced EMTs, paramedics, critical care paramedics, registered nurses (RNs) and certified nursing assistants (CNAs). In turn, the project will create entry points to health care professions and expand the access to primary health care for rural residents.
